

# PRESENTATION FOR STUDENTS

ThinkUKnow Australia provides free presentations to children and young people in schools. These presentations help them understand the benefits and challenges of technology, and develop critical thinking skills to identify harmful situations online as well as how to get help.

Presentations can be organised at any time of year, as part of routine classroom education or in response to an incident.

## OUR PRESENTERS

Presentations are delivered locally by State and Territory police in your area.

Presentations aim to support positive, proactive engagement between children and young people and police.

## WHAT WE TALK ABOUT

Student presentations focus on online child sexual exploitation, using real cases studies from the Australian Federal Police-led Australian Centre to Counter Child Exploitation.

### These include:

- Privacy and preventing inappropriate contact
- Online grooming
- Self-generated content
- Image-based abuse
- Sexual extortion
- Sharing content
- Meeting people online
- How to get help and report.

## PRESENTATION AGE GROUPS

Student presentations are linked to the Australian Curriculum, with key learning areas to ensure content is relevant and age-appropriate.

We invite schools to submit an [Expression of Interest here](#) for a ThinkUKnow Australia presentation.

### Our student presentations are segmented by age group:

- Kindergarten/Prep/Foundation
- Years 1-2
- Years 3-4
- Years 5-6
- Years 7-8
- Years 9-10
- Years 11-12
